Assembly Instruction

**Step 1**

- **Small Side Panel (Type A & B)**
  - Type A: 2 Pieces
  - Type B: 2 Pieces
- **Head Panel**: 4 Pieces
- **Large Side Panel**: 2 Pieces
- **Nuts**: 24 Pieces
- **Bolts**: 24 Pieces

**Step 2**

- Insert the nuts into the small side panel (Type A)

**Step 3**

- Insert the bolts into the head panel

**Step 4**

- Attach the head panel with the small side panels as shown
Follow step 2 & 4 to make one more.

Insert the nuts on the large side panels.

Attach the large side panels to the preassembled one as shown.

Attach the small panels (Type B) as shown to finish the assembly.
1. **Remote Control**: Controls temperature setting and movements of the internal jade massage heads.

2. **Cloth Cover**: Protects the internal structure of the bed. Can be detached for cleaning.

3. **Frame**: Hold up the upper and lower body of the bed.

4. **External Jade Massage Heads**: Provide a thermal treatment to any desired area.

5. **Power Connection Panel**: Panel for connecting cables for power, external jade massage heads, and remote control.

6. **Lower Body**: Two internal jade massage treatment to your lower body

7. **Main Body**: Two internal jade massage head provides thermal and massage treatment to your upper body according to the pre-programmed operational mode.

8. **Main Power Panel**: Main power switch is located here.
1. **Connection Terminal**: Connects to the lower body.
2. **External Projector Terminal 1**: Connects to 2-way external jade massage head.
3. **External Projector Terminal 2**: Connects to 15-way external jade massage head.
4. **Remote Control Terminal**: Connects to the remote control.
5. **Power Terminal**: Connects to an AC 120V outlet.
Controller Parts & Function

1. **LCD Display**: Displays the operating condition and operational mode, current temperature, and system’s error codes.

2. **Jade Massage Head LED**: Indicates the operating condition of internal and external jade massage heads.

3. **Run/Stop Button**: Starts and stops the operation of the internal jade massage heads.

4. **Pause Button**: Pauses movement of the internal jade massage heads.

5. **Mode Button**: Sets the automatic operational mode (P1~P6) of the internal jade massage heads in the main body.

6. **Manual Function Button**: Selects the manual operation of the internal jade massage head of the main body.

7. **Temperature LED**: Indicates the temperature of the bed.

Preparation

Install the product on a flat surface. Otherwise, it can make noisy sound or your spine can be misaligned.

Do not install the product in areas with moisture or dirt. It can be harmful to the product.

The rated voltage is 120V/60Hz. Failure to do so may result in electric shock and short circuit.

Once the frame has been assembled, secure the upper and lower bodies to each other with the velcro straps on the bed.

Plug in the connecting cable for the main and lower bodies to the connection terminal and secure the locking cap by turning it clockwise.

Plug in the remote control cable to the remote control terminal and secure the cap by turning it clockwise.

Plug in the connecting cables for the external jade massage head by locking caps by turning them clockwise.

Connect the power cord to the power terminal on the power connection panel.

Plug in the power plug to the outlet.

Do not pull the electric cord with wet hand. This may result in electric shock.
Turn on the main power switch.

Lay down comfortably on the bed. Please allow approximately 3” to 3.5” from the top edge of the bed to the top of your head.

Press the Run/Stop button on the remote control. The Run/Stop LED lights up in green. The set temperature of main body will appear on the display monitor. The temperature LED and the internal jade massage head LED will light up in green.

To pause the movement of the internal jade massage heads, press the Pause Upper for the upper body and Pause Lower button for lower body. Pause Upper/Lower LED will light up in green. To resume the operation, press the same button again. (If the internal jade massage heads are pause for more than 2 minutes, they will be turned off for safety purposes.)

When the operation is completed, turn off the main power switch. If the power switch is not turned off, the current setting will be saved for the next session.
Instructions (Mode P1~P6)

Press Run/Stop button on the remote control.

The temperature set for the internal jade massage heads will appear on the display monitor.

Press the Mode button until a desired mode (P1~P6) appears.

If a different mode is selected during the operation, it will start the selected operational mode from the beginning. The Pause button will not work when the internal jade massage heads in the main body are relocating to the starting point (neck area).

If the power is not turned off after a completion of treatment session, the selected mode is saved for the next session. If the power is turned off, the Mode 1 (P1) will be saved as a default to the next session.
Press the Run/Stop button on the remote control.

The temperature set for the internal jade massage heads will appear on the display monitor.

Press the Manual button located on the lower left side of the remote control.
The Manual LED will light up in green.
Manual Mode (P7) will appear on the display monitor.

When the Temperature/Movement down button is pressed, the internal jade massage heads will move to the lower back area.
When the Temperature/Movement up button is pressed, the internal jade massage heads will move to the neck area.

In manual mode, the lower mechanism continues to move automatically.

To stop the manual operation, press the Manual button again.

The manual operation LED will be turned off, and the product will start from the automatic operation selected from the previous session.
**Instructions (Foot Massage/P2)**

Press Run/Stop Button on the remote control.

Keep pressing the Mode button until Mode 2 (P2) appears.

Mode 2 (P2) massages the entire lower body as default.

To apply sectional massage on the foot, press the Pause Lower button when it reaches the desired position. The Pause LED will light up in red.

*After applying sectional massage to the lower body, pause for a short time, then it will start on the set area.

---

**Instructions (Temperature of Internal Jade Massage Heads)**

The range of temperature is between 104°F~140°F (40°C~60°C) with an increment of 9°F (5°C).

The internal temperature set button simultaneously sets and controls the temperature of the main and lower body.

Temperature may be changed at any time during the operation without affecting the program.
Instructions (External Jade Massage Heads)

Turn on the main power switch.

Turn on the external jade massage head power switch located on the top.

Press Temperature/Movement button on the remote control. The external jade massage head will light up in green.

Select the desired temperature by pressing either ‘up’ or ‘down’ on Temperature/Movement button.

The range of temperature is between 104°F~131°F (40°C~55°C) with an increment of 9°F (5°C). This feature sets both 2-way and 15-way jade projector.

Apply the external jade massage head on desired areas of your body.

When the treatment session is done, turn off the power switch of the external jade massage head.

Temperature can be changed any time during the operation.
Warning & Caution

Please follow these instruction details in order to protect yourself from accidents.

Do not use this product more than four times a day to avoid side effects.

Always wear clothes when using this product.

Do not set the temperature excessively high. It can cause malfunctioning or skin irritation.

Start from the lowest temperature setting and gradually increase temperature to avoid getting burned.

Keep children away from the product while the product is operating. Their skins are more sensitive to heat.

Do not use the product when you are not properly positioned on the product.

Do not get up from the product while it is operating.

Be careful not to fall asleep while receiving treatment to avoid getting burned.

If there is smoke coming out of the product, stop using the product immediately and contact Migun demonstration center.

When there is power failure or malfunction of the product, turn the power switch off and stop using the product immediately.

Do not spill any liquid on the product.

Do not disassemble, repair, or modify the product on your own. It may cause fire or electric shock.
**Storage & Maintenance**

Store the product in a dry area when not in use.

Keep the product away from direct sunlight. Do not allow dust and foreign substances to come in contact with the product.

Remove dust from the product on a regular basis.

Do not adjust or alter any components of the product under any condition.

Please disconnect the power plug when not in use.

**How to Clean the Product**

Disconnect the power plug when cleaning this product.

Detach the Cloth Cover for cleaning.

Use a leather cleaner or dry cloth to clean the outer layer of the bed (synthetic leather).

Use damp cloth or furniture cleaner to clean the frame.

Remove dust from the product on a regular basis.

Clean the jade massage head occasionally. Make sure that the light is always visible when it is in use.
**Replacement Items**

<td></td>
</tr>
</tbody>
</table>

*For sanitary purposes, wash the Cloth Cover often in summer.*

*When replacement items are not properly changed or managed, a noise can develop during operation. If the items are not properly changed, a severe damage can occur to the product.*

*When mesh netting is placed upside down, operation might be noisy.*

---

**Replacing Items**

**Cloth Cover:**
1. Unplug the power plug.
2. Detach the cloth cover. (Velcro under the product makes it easier to detach.)
3. Attach the cloth cover.

**Mesh Netting:**
1. Unplug the power plug.
2. Detach the cloth cover. (Velcro under the product makes it easy to detach.)
3. Open up the mattress cover by unzipping and release the rubber band located on the middle of mesh netting by detaching velcro under the product.
4. Unclip the mesh netting clip located at the both ends of mesh netting to replace. Clip the mesh netting in the new mesh netting.
5. Clip back in the mesh netting clip onto the product. Put the rubber band back to tighten it.
6. Put the mattress cover back on and close the zipper. Attach the cloth covers.
If the following error messages appear on the display monitor, stop using the product and contact the Migun center where you purchased the product or the Migun Headquarters.

MIGUN USA, CORP. Service Contract

Service and Coverage: To arrange service for products covered by this Service Contract, please call the store where you purchased the product. Your initial call to MIGUN (Company) will include a fault diagnosis to clarify a problem and is required prior to commencement of repair services.

DO NOT SHIP OR OTHERWISE DELIVER THE PRODUCT TO THE COMPANY UNLESS YOU FIRST CHECK YOUR OWNER’S MANUAL AND TROUBLESHOOTING GUIDE AND UNLESS YOU OBTAIN SERVICE AN AUTHORIZATION NUMBER FROM A CUSTOMER SERVICE REPRESENTATIVE.

• Repairs will be performed at our discretion by a Company service center or by a third-party service contractor.
• The term of this Contract commences on the original product purchase date and expires one year thereafter.

THIS CONTRACT IS MADE INSTEAD OF A MANUFACTURER’S WARRANTY. MIGUN DOES NOT MAKE ANY WRITTEN WARRANTIES AND HEREBY EXEMPTS, TO THE MAXIMUM EXTENT ALLOWABLE BY LAW, ANY IMPLIED WARRANTIES INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE. THE PRODUCT COVERED BY THIS CONTRACT IS SOLD TO BUYER AS-IS, TO THE EXTENT ALLOWABLE BY LAW, AND THE BUYER AGREES HE/SHE HAS NOT RELIED ON ANY PROMOTIONAL MATERIAL, ORAL REPRESENTATIONS OR PROMISES, OR ANY RECOMMENDATIONS MADE BY COMPANY OR ANY OF ITS REPRESENTATIVES IN RELATION TO THE PURCHASE OF THE PRODUCT.

• Products covered by this Contract may be repaired or replaced with a comparable product at this sole discretion of Company.
• In the event that the Product or components of Product must be shipped to the Company for repair or replacement, the Company at its sole discretion may direct Buyer to ship the goods to its headquarters, a Company service center, or third-party service center. All shipping, handling, shipping insurance costs, and risk of loss for shipments to and from Company shall be borne solely by Buyer.
• This Contract covers parts and service charges only for repair and/or replacement of Product or components of Products resulting from manufacturing defects.

Dispute Resolution: Any claims or disputes arising under this Contract shall be resolved in the following manner and sequence: (1) First by telephone consultation with a service advisor handling the Customer Service telephone number listed on this Contract, (2) Secondly by non-binding mediation conducted in the District of Columbia by a third-party mediator selected by the Company, and if non-binding mediation is not successful, (2) Finally by binding arbitration under the rules of the American Arbitration Association. Buyer and Company hereby selects
MIGUN USA, CORP. Service Contract

the District of Columbia as the forum state for arbitration of any and all claims or disputes. Buyer hereby waives all right to a jury trial and to settlement of any claims or disputes in state or federal court. Each party is responsible for bearing its own attorney's fees, costs and expenses and for one-half of any fees and costs charged by a third party mediator or arbitrator.

Purchaser Records: To obtain services under this Contract, you must have an original, fully-executed Contract by you and the Company and all original receipts.

Exclusions: This Contract does not cover repairs or replacements caused by accidental or intentional physical damage, condensation, spilled liquids, misuse, abuse, altered or missing serial numbers, damage caused by non-authorized repair personnel or by Buyer, damage caused by connection of Product in an improper electrical power source or by electrical malfunctions. Also not covered are repair or replacement costs for lost or consumable parts, normal wear and tear, age of Product, cosmetic damage and problems due to improper and/or non-factory authorized installation or repairs. This Contract is not transferable. This Contract also excludes the following circumstances:

- Products that are used for commercial purposes, public rental or communal use in multi-family housing. Use of a product for there purposes will void this Contract.
- Buyer hereby waives any consequential or incidental damages, including but not limited to, loss of use.
- This Contract does not cover any fees related to third party contracts.
- Buyer hereby agrees that this Contract is not represented as an insurance policy or a statement of warranty of any kind.
- This Contract shall be rendered null and void if the covered Product is used or moved outside of the continental United States.
- Buyer is solely responsible for all shipping and handling costs, including insurance, and bears all risk of loss for Product or components of Product shipped to or from Company.
- Certain consumable parts are available for purchase from the Company and are not covered by this Contract. Buyers interested in purchasing consumable replacement parts may request a current product and price list from the Company.
- Receipt of a Product or components of Product from Buyer shall not be construed as the Company's acceptance of such goods for coverage under this Contract. Upon receipt of such goods, Company shall perform an evaluation and provide Buyer a written work order identifying both covered and non-covered parts and services. Buyer is solely responsible for payment of Company's then current price for repair and/or replacement of non-covered parts and problems.

Consumable Parts
- Mesh netting, Cloth cover, Leather cover (must be installed by an authorized Company service center)
- Supporting frame for remote control

Parts Covered by this Contract:
The following that Buyer pays for all expenses related to shipping, handling, and insurance.
- Fuse
- Printed Circuit Board
- Limit Switch
- Remote Control
- Upper and Lower body connector

Covered Product: Only the Product identified herein shall be covered by this Contract. Any peripheral components or accessories not listed below are excluded from coverage under this Cont
